

### About KAMIJIMA TOWN

Kamijima town sits on a beautiful archipelago of 25 islands nestled in the Seto Inland Sea. Untethered by bridges to the mainland, Kamijima is a peaceful island haven, with the 4 main islands - Yugejima, Sashima, Ikinajima, and Iwagijima- connected by three graceful cable-stayed bridges. Beyond the bridges lies Uoshima, Takaikamishima and many more islands, waiting to be explored.

These islands resonate with history. In ancient times, it was a "salt manor," vital to prosperity. Today, they retain echoes of this rich past. Discover local festivals, embrace time-honored traditions, and let the islands' tranquility wash over you as you explore their scenic beauty. Kamijima isn't just a destination; it's an enchanting experience.
